

Tohoku University Global COE Program

The 2nd International Symposium on Information Electronics Systems

July 14-15, 2008 at Sendai Excel Hotel Tokyu, Sendai, JAPAN

Invited Speakers

Prof. Valeriu Beiu
United Arab Emirates University, UAE
Quo Vadis Nano-Architectures?

Prof. Anders Bjarklev
Technical University of Denmark, DEN
Recent Progress in Advanced Photonic
Crystal Fiber Devices - in a DTU Fotonik Perspective

Dr. Ed Chi
Palo Alto Research Center, USA
Enhancing the Social Web through
Augmented Social Cognition Research

Prof. Venkatraman Gopalan
Pennsylvania State University, USA
The Secret Life of Ferroelectric Domain Walls

Prof. Kevin O'Grady
University of York, UK
Ferrofluids: Magnetic Liquids

Prof. Erich P. Ippen
Massachusetts Institute of Technology, USA
Femtosecond Technology for
Optical Arbitrary Waveform Generation

Prof. Anvar Zakhidov
University of Texas at Dallas, USA
Novel Architectures for Nanoelectronics with
Carbon Nanotubes, Quantum Dots and Photonic Crystal

GCOE Members

Group A Information/Device Fundamentals

Keiichi Edamatsu
Naoki Kobayashi
Hiroaki Muraoka
Hideo Ohno
Yasuo Cho
Michio Niwano
Takeshi Tokuyama
Tatsuo Uchida
Rikizo Hatakeyama
Migaku Takahashi
Jun-ichi Kushibiki
Jun-ichi Murota

Group B Networking

Fumiyuki Adachi
Takahiro Hanyu
Masayuki Kawamata
Susumu Horiguchi
Masataka Nakazawa
Kunio Sawaya
Nel Kato

Group C Intelligent Information Systems

Michitaka Kameyama
Yoiti Suzuki
Kazuyuki Tanaka
Takafumi Aoki
