

The 4th International Symposium on Information Electronics Systems

CERIES-GCOE10

Center of Education and Research for Information Electronics Systems

—Next Generation Communication with Good Sense of Presence—

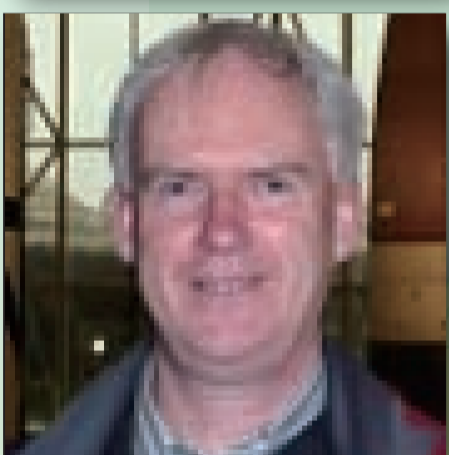

Invited Speakers

Prof. Nobuyuki Imoto
Osaka University, Japan
**Managing Multipartite
Entanglement Using Photons**

Prof. Young Hee Lee
SungKyunkwan University, Korea
**Strategy of Carrier Control of
Carbon Nanotube Transistor**

Prof. Tom Thomson
University of Manchester, UK
**The Quest for Tbits/in²
:Understanding and Manipulating
Nanoscale Magnetism**

Prof. Lin Cai
University of Victoria, Canada
**Protocol Design and Optimization
for Next Generation
Ubiquitous Networks**

Prof. Wai Tung Ng
University of Toronto, Canada
**Power Management for VLSIs
— a Power Electronics Perspective**

Prof. Panos Papamichalis
Southern Methodist University, USA
**The Use of Sinusoidal Illumination
for Optical Super-Resolution
and Depth Estimation**

Prof. Koeng-Mo Sung
Seoul National University, Korea
**An Objective Quality Assessment
Model of Multi-Channel Audio
Coding Systems**

GCOE Speakers

Group A Information/Device Fundamentals

Keiichi Edamatsu
Hiroaki Muraoka
Michio Niwano
Rikizo Hatakeyama
Jun-ichi Kushibiki

Group B Optical/Wireless Networking

Fumiyuki Adachi
Masataka Nakazawa
Nei Kato

Group C Intelligent Information Systems

Yôiti Suzuki
Kazuyuki Tanaka
Takafumi Aoki

July 7-8, 2010

Sendai Excel Hotel Tokyu, Japan

RIEC
ECEI

Tohoku University Electro-Related Departments Global COE Program
